

COLONIAL STATIONERY

was crude at its best. We know it is the fashion to praise everything that is old, but it isn't fair.

OUR STATIONERY

is entitled to as much respect as that of Washington's time. It is just as good and infinitely more graceful and pretty. Cheaper, too, by a great deal. Want some?

TOY DEER FOR RICH TO HUNT

Clarence Mackay installs Mechanical Animal on Long Island Estate.

Even in this age of extravagant mechanical contrivances it is doubtful whether any toy has been constructed so unique and costly as that which Clarence Mackay recently has had installed on his estate at Harbor Hill, near Roslyn, on Long Island, says the New York Press. Shooting galleries in which rabbits, pigs and lions bob up and disappear in front of a screen a dozen feet away to tempt and test the aim of sportsmen have long been familiar to visitors to Coney Island and other similar resorts. Clarence Mackay has constructed in the wildest part of his big estate a regular railway to furnish him the same sport on a scale and in a manner that are absolutely true to nature.

The railway, which runs in an irregular ellipse and is operated by electricity, is a mile long and goes winding in and out among the woods and broken ground with all the seeming irresponsibility of a wild animal. The wild animal is provided in the shape of a life size deer, mounted on a small boggy truck. At a speed which can be regulated at any pace up to ten or twelve miles an hour the deer is carried through the woods, and as it appears at the different openings that have been cut among the trees along the route of the railway Mr. Mackay and his sporting friends get a chance for just such a quick shot as the hunter in the Maine woods has to rely on to fill his bag.

At the end of the run the truck passes over an automatic switch which shuts off the current, and the deer comes to a standstill in a sheltered pit, where a marker is posted. He notes the places where the deer has been hit, telephones by means of a special wire laid down for the purpose the results of his aim to the man with the gun and then, as soon as he has pasted a piece of canvas or brown paper over the wounds that have been made, is ready to start the deer off again to run the gauntlet of the marksmen a second or a third time.

Losing Venture.

Several years ago a company was formed in London which offered to all women who for a certain time bought half a pound of tea at their stores a pension of 10 shillings a week if they lost their husbands. The list of widows gradually reached 20,000, and the company had to suspend payment.

The Devil's Stepping Stones.
The irregular reefs that stretch out from the base of Great Neck, on the north shore of Long Island, toward the mainland, across the sound, are known as the Devil's Stepping Stones.

Keep Thinking About It.

Cough Syrups that are constipating leave the stomach and bowels in a dangerous condition. A cough syrup that is a laxative is sure to give better results. Lix-all is a laxative, and if it fails to cure your cough or cold we will pay back your money.
D. F. Davis, Barre. E. A. Drown, Barre. F. A. Amesworth, Williamstown.

The Vital Question

Most Names by Which Diseases Are Known Are Merely Technical Terms to Distinguish Slight Differences.

Chronic maladies are due to two conditions: First, to poor blood and disordered circulation; second, to a lack of nervous force and unequal distribution of it. In other words, we may look to the blood and nerves for most of the lingering ills that weaken, plague or wreck human kind. This explains why Dr. Chase's Blood and Nerve Food cures so many diseases that bear distinctive names. It puts the blood and nerves right, and through them the whole system comes right. This concentrated Food is a blood builder which so improves the vital fluid that it thoroughly nourishes every part of the body. It is also a powerful vitalizer, thus giving an abundant store of energy to the nerve centers, which is distributed to every part, according to its needs. Price 50 cents, five boxes, enough to give it a fair trial, \$2.00. Weigh yourself before taking it. Book free.

The Catholics of Great Britain find that for the first time since the reformation their churches, chapels and stations number over 2,000. The exact total is 2,008.

The Sunday school lessons for the first six months of 1905 will be in the gospel of John. The latter half of the year will be devoted to Old Testament studies, from Isaiah to Malachi.

A preacher and writer known on five continents, Rev. Dr. Alexander MacLaren of Manchester, England, has been chosen chairman of the world congress of Baptists, which meets in Exeter hall, London, next July.

An English firm has received the contract to erect the tower and spire of the American church in the Avenue de Alma, Paris. The spire will rise to a height of 240 feet and will be higher than any other spire or tower in the city.

Black Eyed Bobbies.

The London police have a rule that allows the officers a chance to go into hiding whenever they get a black eye in the course of duty. If it is not a serious one they are allowed to do night duty.

Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that they have entirely cured me. Therefore let me know that I shall recommend them to any one suffering from such troubles."
